

December issue: **Applications**

- 20th anniversary: CANopen in the hands of CiA
- Detecting and counting unwanted particles
- CAN FD: Improved residual error-rate

September issue: **Applications**

- Mechanical assistants with embedded CAN networks
- Stability of mobile construction machines
- Lock and load: LEVs for public infrastructures

June issue: **System design**

- CAN FD from an OEM's point of view
- The susceptibility of CAN to latent faults
- CAN FD: Impact on system design

March issue: **Embedded networking**

- Farming with passion: CAN is set
- To the light tower
- Detecting car damages with CAN networks
- Tumor treatment with a CANopen motor

Special issue China: **CAN FD**

- CAN FD: Improved residual error-rate
- CAN FD: Impact on system design
- CAN FD: Impact on system design
