The display appears to simply hover over the dashboard and even includes a white LED ambient light on the bottom. It is Apple Carplay and Android Auto compatible, which allows using the navigation functions of smartphones. The product comprises DAB+ digital radio, USB video playback, Bluetooth hands-free, and audio streaming.

In order to connect the parking sensors, the digital media station provides a CAN interface. This enables additionally compatibility with the vehicle's steering wheel control buttons, display of air conditioning settings as well parking sensor display. Other add-on interfaces include USB, Bluetooth, and camera ports.
